

Mission Statement

We at MRS, LLC. strive to provide a clear, concise, and flexible coding solution while radically improving the revenue cycle performance for our clients and their patients.

Message from the President: Robin Ingalls-Fitzgerald

"We've set out to transform the field of medical coding and fill the cracks for the benefit of all parties. We can be your one stop shop for all your coding needs. MRS will make the transition easy and our highly skilled coders and educators will ensure accurate and timely queue management. You will be impressed with our accessibility and communication as we aspire to be viewed as a part of your team."

Client Focused

Since our inception, our entire organization has been asked to look beyond the routine and continuously find ways to achieve maximum return for our clients and their patients. We do this by focusing on client satisfaction and financial health. We at MRS have the expertise and a clear understanding of regulations that dictate how our clients should approach and develop their policies and procedures. We start with this basic understanding and add to that knowledge base with continuing education and communication with our clients. We feel proud when we know that compliance is achieved, revenue increases, and client satisfaction is enhanced.
